EDUCATION

2017 - 2021

VIRTUAL UNIVERSITY

- BS in Computer Science

2014 - 2016

PUNJAB GROUP OF COLLEGE

- I.C.S (Intermediate in Computer Science)

SKILLS

- HTML, HTML5, CSS, CSS3
- JavaScript, Jquery
- Alpine Js
- Bootstrap, Tailwind CSS
- React JS, React Bootstrap
- Material UI
- Next JS
- Laravel, RESTful APIs
- Git/GitHub
- Speed optimisation
- Responsive design, cross
- browser compatibility

PROFILE

I am a passionate Front-End Developer with expertise in **HTML, CSS, JavaScript, jQuery, Bootstrap, SASS, Tailwind CSS, React.js, and Next Js**. I specialize in building responsive, user-centric interfaces with a strong focus on mobile-first design principles. With hands-on experience across all stages of the front-end development lifecycle, I excel at transforming ideas into visually engaging and high-performing web applications. Committed to continuous learning and growth, I aim to deliver innovative, scalable, and impactful digital solutions that enhance user experiences and contribute to the advancement of the technology industry.

WORK EXPERIENCE

Prismecs

JUNE 2024 - PRESENT

Frontend Developer

Responsibilities:

- Participated in client requirement meetings to gather functional and technical needs from stakeholders.
- Collaborated closely with UI/UX designers and backend developers to deliver seamless user experiences.
- Developed responsive, user-centric interfaces using HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, and React.js.
- Ensured cross-browser compatibility, accessibility, and performance optimization across multiple projects.
- Built reusable UI components and implemented clean, scalable front-end architectures.
- Integrated front-end features with Laravel-based applications and REST APIs for seamless functionality.
- Followed Agile practices, version control with Git/GitHub, and clean coding standards to support project success.

Codility Solutions

2022 - FEB 2024

Frontend Developer

Responsibilities:

- Participated in requirement discussions to understand client needs and translate them into technical specifications.
- Partnered with UX/UI designers to convert wireframes and prototypes into engaging, functional interfaces.
- Design and implement intuitive, visually appealing interfaces using HTML5, CSS3, and modern frontend frameworks.
- Leverage expertise in Bootstrap, Tailwind CSS, SASS, and Material UI to create clean, responsive layouts.
- Develop scalable applications with Laravel, React.js, ROR, Vue.js, and Next.js, ensuring seamless backend integration.
- Collaborate with multidisciplinary teams—including developers, testers, and project managers—to achieve project milestones.

WORK EXPERIENCE

AL-KHWARIZMI INSTITUTE OF COMPUTER SCIENCE (KICS)

2021-2022

Web Instructor

- Conduct comprehensive training in frontend and backend technologies, including HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL.
- Deliver specialized instruction in WordPress development and seamless integration.
- Develop structured course materials and strategic lesson plans.
- Ensure a student-focused approach, prioritizing clarity and practical skill development.
- Guide learners in building dynamic, feature-rich, and responsive websites.
- Empower students to create professional-grade web solutions with confidence.

PROJECTS

Prismecs [🔗](#)

A global engineering and supply chain solutions provider website built to showcase services and drive client engagement.

- Designed and developed a modern, mobile-first interface with responsive UI components.
- Integrated APIs and backend systems to ensure smooth navigation and functionality.
- Optimized performance, accessibility, and SEO for improved search visibility.

Tools & Technologies: HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript, jQuery, Responsive Design, SEO Optimization

eINDUSTRIFY - Global Industrial Equipment Marketplace [🔗](#)

A digital procurement platform enabling businesses to streamline industrial equipment sourcing.

- Built product catalog, category filtering, "Shop by Brands/Industries," and quick-order forms.
- Developed responsive, user-friendly UI with utility-first frameworks.
- Collaborated with backend developers for data integration (login, cart, navigation) and ensured consistent UX.
- Optimized cross-device performance and fast load times for desktop and mobile.

Tools & Technologies: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Responsive Design, UI Components, API Integration, Performance Optimization

Jamiah SMS (Codility Solutions) [🔗](#)

A web and mobile-based school management platform for educational institutions across Pakistan.

- Developed responsive UI components and ensured smooth integration with Laravel + Livewire backend.
- Contributed to performance improvements and usability enhancements for teachers, students, and admins.

Tools & Technologies: Laravel, Livewire, Tailwind CSS, HTML5, CSS3, MySQL, PostgreSQL, Docker, Git/GitHub

Breeders Den - Web3 NFT Platform (Codility Solutions) [🔗](#)

A decentralized NFT platform for Muzzle Run, enabling players to mint, breed, and manage digital assets.

- Built responsive UI using React.js, Next.js, and Bootstrap, ensuring seamless Web3 gaming experience.
- Collaborated with blockchain developers to integrate NFT functionality.

Tools & Technologies: React.js, Next.js, Bootstrap, Git/GitHub
